

Alkaline applications

A good acid-alkaline balance is the prerequisite for the well-being of the body and beautiful skin. Today's lifestyle often leads to an excess acidity. Alkaline body care neutralises acids and helps the skin to naturally excrete toxic substances. This promotes stress relief, general regeneration and releases blocked energy. This is also ideal for hypersensitive skin and neurodermatitis.

Alkaline facial treatment (80 min) 121 €

An extremely effective facial treatment especially recommended during a **TCM DETOX** regimen, consisting of an intensive cleansing, deacidifying fleece mask, pampering massage and deeply effective products. The treatment helps the skin to free itself from acidic remnants and brings it back to its natural balance. The regeneration process of the skin is supported, the appearance of the skin is significantly improved, the cells are filled with new energy and the skin retains a feeling of wonderful harmony.
